

## Eastek Access<sup>SM</sup>: An Entry-Point for Starting Your Own China-Based Manufacturing Program

If you seek a low-risk, quick and cost-effective solution to establishing your own China-based manufacturing program, you need Eastek Access.<sup>SM</sup> Let's face it: Establishing operations in China is very complex, costly and time-consuming. With the high price of entry, language and cultural obstacles, complex import and export procedures and local government relations to manage, the challenges can seem insurmountable.

With Eastek Access, you can establish your own "factory within a factory" in less than six months, setting up your own operation within Eastek's manufacturing facility in southern China and leveraging Eastek's significant experience, expertise and resources to assist you. **If you don't have the resources or knowledge to set up your own shop – but you have the desire or need to do so – Eastek Access is for you.**

Eastek Access is built on the foundation of the industry-leading Eastek Edge,<sup>SM</sup> offering design, sourcing, production and logistics services, together with the benefits of unmatched intellectual property protection. From manufacturing sub-assemblies to managing complex turnkey product assemblies, Eastek can take your product from concept through product launch, ongoing production and distribution, or anywhere in between.

### Eastek Access<sup>SM</sup>

*Eastek Access is a quick and cost-effective way to lay the groundwork for establishing your own manufacturing operation in China. With Eastek Access, you select from a range of manufacturing and support services to create a program tailored to your needs.*
